Surrey Hills Vic 3127

Dear Ms Nall,

RE: FLIGHT INFORMATION DISPLAYS INSTALLATION

DIB Australia helped AaE – Group Operations at Building 186, Melbourne Airport access flight information via QF FIDs environment. Our new location is about 1km from the main passenger terminal.

The DIB Australia created solution offered AaE a unique cost effective solution utilising existing telephone lines and infrastructure. After some third party negotiations, 3 FID monitors were installed and are now fully operational.

We have been delighted with the service and the savings the solution offered.

Regards

Mr Sohan Perera,
Finance and Admin Manager
