

Catholic Regional College St. Albans

love one another as I have loved you

6TH June, 2006

To whom it may concern,

This is short note to let you know of our appreciation for the work done recently by DIB Australia to relocate our Edu Link system from its present location to a location at the opposite end of the school. With minimum fuss or disruption to the school and its students, DIB set about completing the move in a professional manner. The technicians' onsite were great, because after being shown what needed to be done, they simply went about their work quietly and efficiently. During the whole process we were always kept well informed by email or phone and our Solutions Consultant Sam Garden was always accessible and available when he said he would be – which is the most important thing to me.

We have built up a good relationship with DIB over the years and are happy with their level of service.

Yours sincerely,

Annette Vella
