D.I.B. Australia – Audio Visual Solutions

TESTIMONIALS

Feedback from our customers indicates that the small things really do make a difference at the end of their project and beyond.

Mentone Grammar School

"We chose D.I.B. Australiadue to Sam Garden. Sam was very knowledgeable and offered creative solutions. His knowledge included both the technical specification of the product as well as the practical considerations of implementation.....The finished jobs are excellent and working with D.I.B. proved a positive experience."

Head of Technologies

St Dominic's Primary School Camberwell East

"We received the excellent recommendation to and did get D.I.B. to rough-in the cabling during the building works stage. D.I.B. then returned to fit the equipment when the building was complete and this greatly enhanced the quality of the installation finish. We found that D.I.B. Australia have excellent processes and procedures in place and will be using them for further interactive whiteboard and projector installations shortly."

Principal

Macleod College

"Bianca from D.I.B. was very friendly and helpful, and her prior experience working in education gives her insight into types of equipment that could be used for certain rooms and for specific purposes. Bianca gave thorough explanations and always followed up promptly with advice and quotes, which was greatly appreciated."

ICT/Network Leader

Berwick Secondary College

"D.I.B. were realistic when it came to scheduling. We received plenty of notice and it was conveniently completed in the school holiday period when the school was closed to students."

IT Manager

Siena College

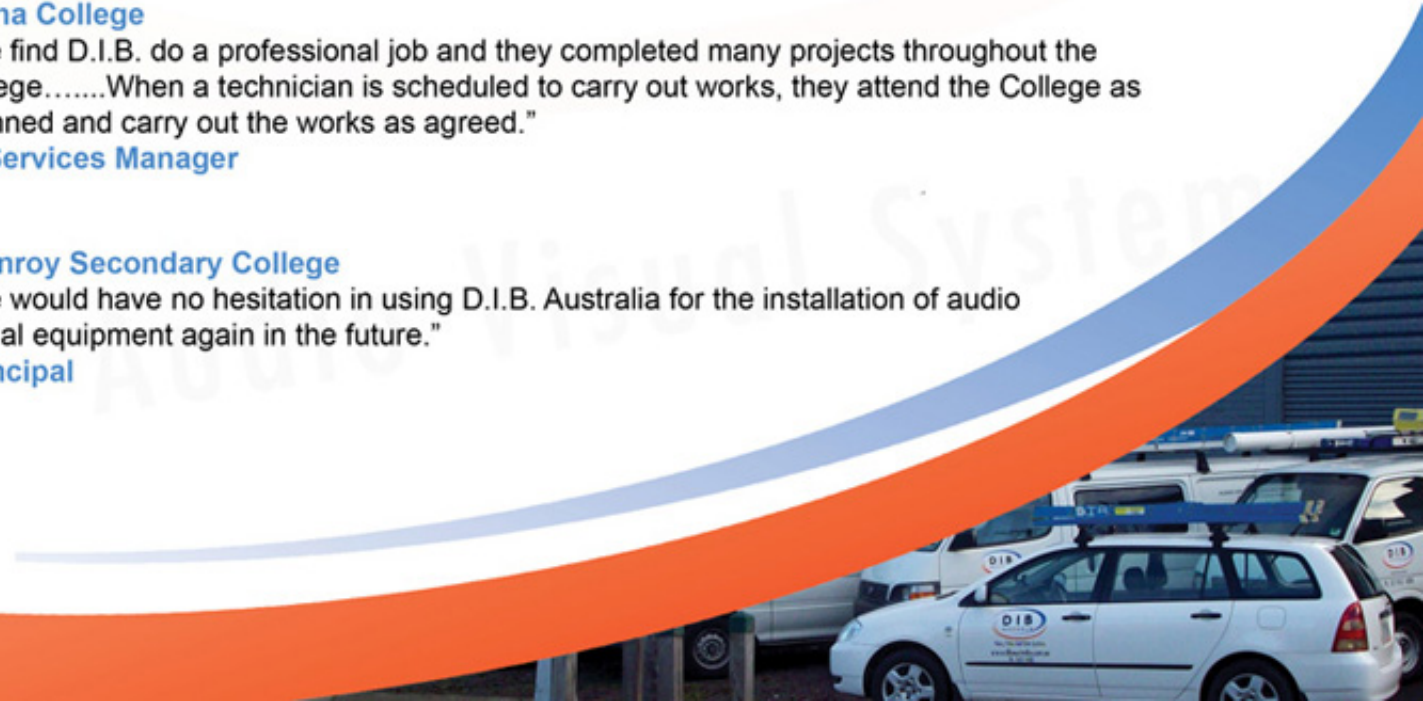

"We find D.I.B. do a professional job and they completed many projects throughout the college.....When a technician is scheduled to carry out works, they attend the College as planned and carry out the works as agreed."

IT Services Manager

Glenroy Secondary College

"We would have no hesitation in using D.I.B. Australia for the installation of audio visual equipment again in the future."

Principal

The D.I.B. Difference

At D.I.B. Australia we are proud to offer a unique Audio Visual Systems consultation, design and installation experience for our customers. We aim for customer service excellence in all areas from your initial contact with us to ongoing service and support.

11 YEARS SERVICE EXPERIENCE

In 2010 D.I.B. Australia celebrated 11 years providing custom audio visual solutions to the education sector and business. As a leading audio visual systems integrator, we are ideally placed to design an audio visual solution to suit your specific requirements.

IN HOUSE INSTALLATION TECHNICIANS

At D.I.B. we have an installation team dedicated to achieving quality results that build long term relationships. With this in mind our installations are NOT sub contracted, but rather installed by technicians employed and trained by D.I.B. who have a long term viewpoint of your business.

DEDICATED SERVICE DEPARTMENT

We have a team of service technicians dedicated solely to service and maintenance. This ensures a fast turn around time and keeps your systems operational. The team is trained to handle all issues from simple repairs and lamp replacements to projector repairs in large halls.

ONSITE 3 YEAR WARRANTY

We offer onsite warranty for your installation works. If we installed your AV equipment then we will service & support it on site.

TECHNICAL RECORDS

We keep individual technical records of every supply and installation, all of which makes service and maintenance quicker and more efficient.

QUALITY CONTROL SYSTEMS

D.I.B. has extensive quality control systems in place during both the planning and installation phases of your work to ensure each job is finished to the same high standard every time.

REFERENCES

We follow up our customers to ensure that all service is satisfactory and as a result we have a number of company references available upon request.
