SPECIAL FEATURES OF DIB PROJECTOR INSTALLATIONS

CONTROL PANELS

D.I.B Australia specialises in a variety of cost-effective control systems to suit classrooms. Designed to control a room's multimedia features, our latest Joey range of control panels afford a level of system control and simplification not before economically available to the classroom projector installation. D.I.B Australia can also design advanced control systems to simplify the most complicated multimedia areas!

PROJECTOR OPTIONS

Projectors are designed and built with a particular purpose in mind. That is why we at D.I.B offer a range of projectors to suit an array of applications, from versatile & affordable projectors such as Epson's EMP-83 to more high powered network projectors, such as the EMP-1815.

WE ALSO OFFER...

- ✓ Special high security cages & ceiling mount to protect from accidental damage & theft
- ✓ Network Video (DVC) interface options

EMP-83

EMP-1815

SOUND SYSTEMS

We offer a range of sound systems from basic self powered stereo speakers (pictured) to speakers from high quality audio houses such as Turbo Sound and JBL for superior audio room support

40 watt & 25 watt self powered speakers

TurboSound 75 watt superior audio speakers

INTERACTIVE WHITEBOARD OPTIONS

We can add value to your installation with creation of a 'Interactive Whiteboard Ready' room, including full bracket assessment, planning and installation of serial USB cable for all types of electronic whiteboards; including 2-Touch, Mimio, SMART boards, Teamboards and a great deal more
