# D.I.B HALL & MPA AUDIO VISUAL INSTALLATIONS

D.I.B Australia specialises in a wide variety of Audio Visual installations to suit your hall or multi-purpose room. Basic projection systems, sound system upgrades and large hall solutions have been installed by D.I.B in many schools across Melbourne. D.I.B has the skill and expertise to handle a room of any size, from a small classroom to a large hall.

## LARGE HALL INSTALLATIONS

- Powerful projectors for any size room
- Sound systems integrated to suit your needs
- Advanced control systems make using the system a one touch process

Hall installations with Projectors, Sound Systems, Control Systems and cabling require expert solutions to create a powerful yet easy to use package. D.I.B Australia use the latest in Audio Visual Technology, and can create a projection and sound system that is powerful, aesthetically pleasing and above all, easy to use.

Whether you want a basic projection system with microphone points, or want to astonish with high brightness projectors, professional audio and touch screen control systems, D.I.B can customise the right system to suit your hall.

## MULTI-PURPOSE ROOM / THEATRE INSTALLATION

- Fully featured Projector/Sound Systems
- Added features, such as; microphones, DVD players & Lecterns
- Designed to meet your requirements!  
Video, Music or Assemblies

Multi-purpose rooms have a myriad of different uses. Whether they are for High Schools or Primary Schools, the Multi-Purpose Room is often used for assemblies, parent nights, guest speakers, or even just to watch a video on a rainy day. Knowing, this D.I.B Australia is able to tailor an installation to suit your needs and budget.

When the Multi-Purpose Room is the main hall, such as in a Primary School, D.I.B can customise the installation to include microphones, DVD players and motorised screens to compliment the standard projector and speaker setup.

## SOUND SYSTEM INSTALLATION/UPGRADES

- New powerful Sound Systems for Music, Video or Public Address
- Upgrade existing system to suit your new requirements
- Minor Upgrades such as adding microphone points or replacing speakers

From adding a pair of speakers, to adding microphone points to give you flexibility or to completely replacing the sound system, D.I.B can install a system for your public address, musical and video needs. D.I.B has also had great success in installing in sensitive areas such as school chapels and memorial halls.
