Everybody's talking about... The latest in Interactive Teaching Technology

FREE INFORMATION SESSION

We are pleased to offer you the opportunity to attend a regional information session on the latest Interactive Teaching Technologies, and their application and value in the Victorian education sector.

Through a series of regional information sessions and on-site client demonstrations, we are providing information to a large number of principals, teachers and information technology professionals on the latest developments in Interactive Teaching Technology.

PAST LOCATIONS

Melbourne Grammar School
Good Shepherd Lutheran Primary School
Westall Secondary College
Thornbury High School
Doncaster Secondary College

COMING SOON TO

Bentleigh West Primary School
Blackburn
Braybrook
Dandenong
Footscray

These information sessions are a rare opportunity for you to see the latest developments in interactive teaching technology. You will experience the look and feel of these developments in a real classroom environment. You will have the opportunity to use them and to ask questions. There is also the opportunity to network with other schools researching interactive technologies while enjoying light refreshments.
