Facsimile **61 3 9497 4060**

Winston Mattson, Ivanhoe Grammar IT Systems Administrator

“We have appreciated having a single point of contact with someone who can identify our needs and see them through to completion.

We are always conscious of budgets and DIB are good at estimating. We have also benefited repeatedly from the cabling expertise of DIB and its employees, making good investment sense to take DIB’s advice on site to maximise our resources for future expansion.

With Sam’s guidance, we have saved the school time and money, often using Sam as a sounding board for ideas in other areas and he has put me in touch with other specialists.

DIB personnel always keep us up to date, in person or on email with the latest changes in the cabling industry.

I definitely refer others to DIB as the company provides that bit extra for every dollar.”
