

CAMBERWELL PRIMARY SCHOOL

Neil McLeish , Camberwell Primary School: --.

" The consultation was excellent. DIB was most knowledgeable in the areas in which we needed advice, as they could grasp the issues and present the solution.

Everything DIB came up with added value to the original plan: Public Address System, Computer Network and Telephone network . Having it all integrated is something that other schools should look at, as it presents a major saving for the future.

Careful and concise budgeting allowed us to carry out precise planning. The alterations to the works were made with full financial implications being clearly stipulated prior to going ahead, giving us control over the works.

During the whole process we were always kept well informed by e-mail, phone and fax. We can highly recommend DIB and will be looking to DIB for our next upgrade".

A handwritten signature in black ink, appearing to read 'Neil McLeish', written in a cursive style.
