31st October 2007

To the Manager D.I.B Australia,

I am writing to express my thanks for the works recently completed at our school. I approached DIB after receiving their newsletter about our AV refurbishments. Solutions Consultant Sam Garden was able to assist me with a proposal for the projector installation into two classrooms, one complete with a Smartboard.

I appreciated Sam's professionalism during the consulting process and the communication from the production team during the actual installation was good. The technicians assigned to the job were also very competent and obliging. I am happy to recommend their services to others.

Best regards,

Kathleen Tehan
